

Belton Combined Utilities News:

Wanda Jordan is currently undergoing Chemotherapy treatment for Stage 4 Colon Cancer. Wanda is the wife of Frankie Jordan (a City of Belton employee for over 40 years). So far, the treatment has been working and her friends and family pray for her continued healing! However, Wanda's medical expenses are currently already over \$109,000. These expenses will only increase as she continues her chemo and radiation to treat the colon cancer and now additional spots found on her liver. As Wanda and Frankie face each new day and the challenges this life-altering disease brings, they covet your continued prayers and deeply appreciate any contribution that is made.

Ways that you can contribute:

- ❖ You may drop off a donation at Belton City Hall in an envelope marked "Wanda Jordan".
- ❖ You may **come to Arnold's of Belton on Monday, September 26th** for lunch or dinner. 100% of their proceeds that day will be donated to cover her treatment costs.
- ❖ You may donate online through the GoFundMe page: <https://www.gofundme.com/WandaJordan>

For more information, contact Kathy Cleveland at 864-338-0058, x152.
